SHIVANK KATIYAR

Data Analyst | Python | SQL | Power BI | Tableau | Excel
katiyarshivank927@gmail.com | +91-9956208289 | Noida, India | LinkedIn | GitHub | Portfolio ↗

PROFESSIONAL SUMMARY

Results-driven Data Analyst and BCA final-year student skilled in Python, SQL, Power BI, Tableau, and Excel. Proficient in data collection, data cleaning, exploratory data analysis, statistical analysis, and data visualization to generate actionable insights. Experienced in building interactive dashboards that support business intelligence and strategic decision-making. Certified by Deloitte, Tata iQ, Cisco, and AICTE. Strong analytical thinking, attention to detail, and communication skills.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL), JavaScript
Data Analysis: Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Statistical Analysis, Data Modelling
BI and Reporting: Power BI, Tableau, Microsoft Excel (PivotTables, VLOOKUP, Charts), Google Sheets
Databases: MySQL, MongoDB, Firebase Firestore
Tools: Git, GitHub, VS Code, Figma, Postman, MS Office, Google Workspace
Soft Skills: Analytical Thinking, Data Storytelling, Problem Solving, Attention to Detail, Communication

WORK EXPERIENCE

QA Testing Intern - HyperCloud Digital Solutions *July 2025 - October 2025*

- Designed and executed 100+ manual test cases across functional, regression, usability, and compatibility testing for 3 software releases.
- Identified and logged defects collaborating with 5 developers, reducing post-launch bugs by 30% through structured triage and reporting.
- Produced sprint-level coverage reports to provide data-driven quality insights and support release decisions.

Freelance Web Developer - Self-Employed *2025 - Present*

- Developed and delivered FlexxWell, a React.js gym platform sold to a paying client; QR-based booking flow generated 50+ leads and achieved a 20% conversion rate.

PROJECTS

Data Analytics Dashboard - Python, Power BI, Tableau *Personal Project*

- Collected, cleaned, and analyzed 10,000+ records using Pandas and NumPy; applied EDA techniques to uncover trends and business patterns.
- Built interactive Power BI and Tableau dashboards monitoring 8 KPIs, translating findings into clear visual stories for faster decisions.

Library Management System - Python, MySQL *Academic Project*

- Engineered a CRUD application managing 500+ book records and 200+ members; normalized relational schema with parameterized queries cut retrieval time by 40%.

Restaurant Ordering System - React, Firebase *In Progress*

- Building a real-time platform with Firebase Firestore; admin dashboard tracks live order queues, menu metrics, and table statuses with instant synchronization.

CERTIFICATIONS

- Data Analytics Job Simulation - Deloitte Australia
- GenAI Powered Data Analytics - Tata iQ
- Technology Job Simulation - Deloitte Australia
- Data Analysis - Simplilearn
- Python Full Stack Developer - EduSkills and AICTE
- CCNA: Introduction to Networks - Cisco Networking Academy

EDUCATION

Bachelor of Computer Applications (BCA) - Galgotias University, Greater Noida *2023 - 2026*
Class 12th - CBSE | GD Goenka Global School, Noida *2022 - 2023*
Class 10th - CBSE | JSM Public School, Kamalganj *2020 - 2021*
